General Education Outcomes Assessment

The GE Outcomes Assessment project was begun in June 2012, when 5 faculty members attended an AAC&U conference in Maryland to create the GE Assessment Strategic Plan.

During the 2012-2013 academic year, more than 30 faculty members served across 3 committees to create rubrics and to use the rubrics to rate student work from first year courses. Please attend to learn about this important project and to provide suggestions for improvement.
