

**Assessment: Making it Work for You**

**A presentation and workshop co-sponsored by the Faculty Center for Teaching and Learning (FCTL) and the Committee on Assessment of Student Outcomes (CASO)**

Assessment should not be about filling out a complicated form in order to meet external demands. Nor should it be onerous. Nor should you do anything solely for the purpose of assessment. The focus should be on the values of your own program and on what students learn. Are you asking the right questions to discover the information you need? What are you doing with what you find out?

Come prepared to talk about the values in your department and learn how to close the loop effectively.

Case studies presented by Edythe Anthony of Biology, Steve Brown of English, and Tom Schmeling of Political Science.

Bring your lunch! We will provide coffee, tea, fruit skewers and cookies.

Wednesday, October 21, 12:30-1:50pm

Faculty Center South—PLEASE NOTE THE ROOM LOCATION!
