

UNDERGRADUATE CURRICULUM COMMITTEE (UCC) ACTION FORM

MAY 2017 Actions

Report of Undergraduate Curriculum Committee Action
Document(s): #16-17-112

Recommendation: Approve.
Date of Action: 5/10/2017
Originated by: Eric Hall Biology/Medical Imaging
Recommended by Undergraduate Curriculum Committee
(Department, Person, or Group)
Effective date: Fall 2017.
Catalog citations: See pages on Curriculum website.

Comments: Asks to approve a revision to the Radiation Technology (RADT) program to remove RADT 440 Cross-Sectional Anatomy (which will be kept in the catalog for other programs) and add a credit to RADT 425 Ethics/Critical Thinking and Problem Solving so that more relevant materials can be covered; this will keep the total credits for the RADT program the same.

Date of Action: 5/10/2017

Originated by: Glenn Rawson Chair Dept. of Philosophy

Recommended by Undergraduate Curriculum Committee
(Department, Person, or Group)

Effective date: Fall 2017.

Catalog citations: See pages on Curriculum website.

Comments: Asks to approve the revision of PHIL 363-364 Seminar in Philosophy to become PHIL 460 Seminar in Philosophy, and become a required, 4-credit course in the PHIL program (that also may be repeated with a change in topic). This will add an additional required experiential aspect to the Philosophy Program, as students will be required to put their learning into action in this seminar.

Originated by: Susan Clark Dept. of Health and Physical Ed.

Recommended by Undergraduate Curriculum Committee
(Department, Person, or Group)

Effective date: Fall 2017.

Catalog citations: See pages on Curriculum website.

Comments: Asks to approve the revision of the prerequisites of HPE 410 Stress Management to become 45 credits (rather than 60) or permission of department chair to allow students more flexibility as to when they can take the course. The previously required Gen Ed. SB course does not really have an relevance to this course's content so can be dropped.

Comments: A collection of proposals intended to strengthen the Management and Marketing majors, making the sequencing and content of courses much clearer for students. Various numbers, prerequisites, titles and descriptions are being altered, a couple of unnecessary courses are being deleted, and some new courses that will allow for more research and honors opportunities are being created. For Management: #122 revises the General Management major to take out the MGT 329 Organization Theory & Design, which is no longer considered necessary, and will reduce the major from 66 to 63 total credits. #123 revises the number of MGT 301 Foundations of Management to become MGT 201. This will affect several programs that use this course, and the

prerequisites of many MGT, MKT and HCA courses (MGT 201 or MGT 301 will be used to ensure records allows students in with the older number—see proposals #127). #124 does the same for MKT 301 Introduction to Marketing to become MKT 201. #125 revises the prerequisite of MGT 249 to delete “or by consent of instructor” as MATH 240 or MATH 248 are the only necessary prerequisites. #126 revises the title, description, and prerequisite of MGT 333 Negotiation and Conflict Resolution, and when it is offered. #127 revises the prerequisites of the following MGT and MKT courses to include MGT 201 or MGT 301 and MKT 201 or MKT 301 where MGT 301 or MKT 301 was previously used as a prerequisite: MGT 306, MGT 310, MGT 311, MGT 320, MGT 322, MGT 329, MGT331, MGT 335, MGT 347, MGT 349, MGT 359, MKT 310, MKT 320, MKT 322, MKT 323, MKT 329, MKT 333, MKT 334, MKT 335, MKT 337, MKT 338, MKT 340, MKT 347, and MKT 467. #128 deletes MGT 342 Comparative Management, as the course is obsolete (no programs require this course). #129 revises the title, description, and prerequisite of MGT 345 Managing in the World’s Regions, and when it is offered. There is also a request that this become effective for Summer 2 2017. #130 revises the prerequisite of MGT 348 Operations Management to add MATH 240 as an alternative to MATH 248 (mostly for transfer students more likely to have the MATH 240 equivalent). #131 revises the prerequisite of MGT 355 Quality Assurance to add MATH 240 as an alternative to MATH 248 (same reasons as above). #132 revises the description and title of MGT 424 Employee Relations and Performance Appraisal, to become MGT 424 Employee Relations and Performance Management. #133 revises the prerequisite of MGT 455 Global Logistics, to just MGT 348, or consent of the director of the Masters of Science in the Management Operations program. This will make it easier for those enrolling in the course for the MS in Operations Management. #134 revises the prerequisite of MGT 461, which contains a long list of courses all students are bound to have taken (some being prereqs. for others in the list), to become “MGT 201 or MGT 301, MGT 348 and FIN 301” #135 deletes MGT 469 Organization Theory as it was created in error and has never been used. #136 and #137 ask to approve new courses MGT 491 Independent Study I, and MGT 492 Independent Study II, to be used for departmental honors, and allow these both to be included as required electives in each of the MGT concentrations.

For Marketing, #138 revises the number of MKT 315 to become MKT 215, and the prerequisite to become the more accessible “Completion of at least 30 credits”, and an updated description. #139 revises the prerequisite for MKT 462 to become the far simpler “MKT 201 or MKT 301, and TWO from MKT 215 or 315, MKT 333, and MKT 334,” and add to when the course will be offered. The last three #140-#142 ask to approve three new courses, MKT 490 Directed Study, MKT 491 Independent Study I, and MKT 492 Independent Study II. The first can be used to assist students needing to pursue an upper level course that is not being offered as an independent study and the latter two will be used for departmental honors, and can be included as required electives in the Marketing program.

Recommendation: Approve.

Comments: #143 asks to approve a new 2 credit course SWRK 306 Biopsychosocial Perspectives for Social Workers and add it to the SWRK program in place of the 3 credit cognate BIOL 103, which will reduce the program by one credit (in checking totals it was also noticed that the current catalog had the wrong totals which can now also be fixed. The final total will now be 63-69 (rather than 73-79). The reason for this is that BIOL 103 no longer has the right content for Social Work majors and SWRK 306 has been specifically tailored to their needs. #144 Due to taking out the BIOL 103, the SWRK 324 Human Behavior in the Social Environment: Individual, Family and Small Group needs to delete BIOL 103 and just keep PSYC 215, PSYC 230, and SWRK 240, which are sufficient prerequisites for this course.
