

RI DD Employment and Day Activity Data Summary

Statewide Summary Annual Comparison 2016, 2019 and 2021

This report is a comparison of 2016, 2019 and 2021 annual survey data for all provider agencies and self-directed support users participating in the surveys. These years were chosen to inform providers of longitudinal changes (2016 - 2021) and pre/post COVID changes (2019 - 2021). Not all questions were asked each of the three years. In those cases, the table will include only data from the applicable years.

About this survey:

1. For the 2021 annual survey, the Sherlock Center outreached to 3,858 individuals on the BHDDH DDD Census. Data was collected on 3,232 individuals (83.8%). See Table 1 for the status of the individuals surveyed.
2. Individuals eligible but not receiving services (759) reported the reason for no services (Table 2) and living arrangement (Table 3). No other questions were asked.
3. Individuals receiving elder services only (119) reported activities participated in during the quarter (Table 4) and living arrangement (Table 5). No other questions were asked.
4. New questions were added to the survey to collect data on the impact of the ongoing Pandemic (e.g., changing employment opportunities, increase in remote activities or services).
5. New this survey, participants were instructed to select an activity category if they participated at any point in the quarter (even if they had no hours of activity during the two-week data period).
6. 2021 Key Dates:
 Survey Period: April 1- June 30, 2021
 Two-Week Data Period: May 16 - 29, 2021

Thank you!

This initiative could not happen without the ongoing efforts of provider agencies, families and BHDDH case workers. A special thank you to the agency survey liaisons for helping to implement the 2021 Annual Survey.
