The Archive Wizard

By Ryan Hanley

The **Archive Wizard** allows you to create a **Respondus archive file**. This file is a compressed version of an exam, and it includes all questions, media, and equations associated with the exam. Archiving a file is not only useful for saving disk space, but for sending the file in email or saving the file to a flash drive as well.

Using the Archive Wizard

Follow these steps to use the Archive Wizard:

1. From the **Start** tab, click **Archive Wizard**.
