## General Education Outcomes Assessment

The GE Outcomes Assessment project was begun in June 2012, when 5 faculty members attended an AAC&U conference in Maryland to create the GE Assessment Strategic Plan.

During the 2013-2014 academic year, many faculty members served on 3 committees to use rubrics to rate student work from first year courses, and on 2 additional committees to create additional rubrics. Please consider joining a committee during the 2014-2015 academic year.
