

## UNDERGRADUATE CURRICULUM COMMITTEE (UCC) ACTION FORM

---

SEPTEMBER 2014

N.B. Proposals 14-15-001 through 008 were withdrawn.

Report of Undergraduate Curriculum Committee Action  
Document(s): #14-15-009

Recommendation: Approve.  
Date of Action: 9/19/2014  
Originated by: Eric Hill Biology and Medical Imaging  
(Department, Person, or Group)  
Effective date: Fall 2015  
Catalog citations: See pages on Curriculum website.

Comments: A request to switch the old COMM 358 Interpersonal Communication course used in all of the Medical Imaging concentrations for the newly created COMM 336 Health Communication, which is far more suitable and relevant. These are both four credit courses so this exchange will not affect any program totals.

### APPROVALS

Chair, Undergraduate Curriculum Committee: Susan Abbotson

Date: 9/19/2014

Report of Undergraduate Curriculum Committee Action  
Document(s): #14-15-010 and #14-15-011

Recommendation: Approve.  
Date of Action: 9/19/2014  
Originated by: Leslie Schuster Director Gender and Women's Studies  
(Department, Person, or Group)  
Effective date: Fall 2015  
Catalog citations: See pages on Curriculum website.

Comments: These proposals aim to make several changes to the Gender and Woman's Study program (both major and minor) to better streamline the programs and ensure the students are taking an effective selection of courses

(the AFRI elective has been broadened to allow for other ethnicities, and ENGL 326 African-American Literature and FNED 346 Schooling in a Democratic Society have been added). Previous categories that were confusing have been consolidated and various 3 credit GEND courses will be raised to 4 credits to allow for better continuity between requirements. #010 also raises the numbering of GEND 300, to 400, to ensure students take it at the proper time, and changes its title to Internship (from Field Experience). Also there is a request to have the two foundation courses require a minimum of C for program retention. The credit count for the major will go from 33-39 to 38-40, and the minor will remain at 18-20.
