3. Report of the Dean of Graduate Studies (DGS)

- a. The Dean reported that Records would like to use COLLEGE 500 rather than GRD 050 as the one credit no tuition course that the Committee had created in the May 2015 meeting for students who are not taking courses but are completing thesis work. The course will appear every semester in the course bulletin but only faculty can register students.
- b. Records will now record Plan of Study for students in CGS program on the student's transcript. Records will not conduct a degree audit so faculty must notify that office when the program has been completed.

The meeting was adjourned at 11:01
